About ESG Research Foundation

ESG Research Foundation (ERF) is a not-for-profit organization incorporated in 2021 with the objective of increasing awareness and adoption of the growing importance of the Environmental, Social and Governance (ESG) aspects of business operations, both within public and private sectors. ERF conducts various activities, collaborates with corporations and regulatory bodies, and supports organizations in implementing their ESG plans. By working together with government bodies, public and private sector businesses, and societies, ERF strives to facilitate the achievement of India's ESG and climate-related goals. The ERF has been registered with NGO DARPAN, NITI Aayog, Govt. of India vide Regn. No. – HR/2024/0318230. ERF provides comprehensive support throughout an organization's ESG journey, covering the entire value chain. From initial assessments to policy setting, implementation, and reporting.

Beyond these core services, ERF also endeavours to make a lasting impact through various activities - webinars, conferences, and training programs specialized in ESG, fostering capacity building and knowledge sharing among diverse stakeholders. ERF works with senior management of corporates and regulatory bodies to develop strategic frameworks and establish short- to long-term ESG goals. ERF also recommends strategies to realize the benefits of ESG opportunities and mitigate any identified ESG risks.

Initiatives

- Prithvi Awards and Global ESG Conference
- Recognised Certificate Courses in collaboration with Ramanujan College, University of Delhi.
 - Fundamentals of ESG and Sustainability,
 - ESG & Sustainability Literacy
- Executive Development Programs for Capacity Building of PSUs, Banks, Corporates, Govt. Dept. etc
- Career Counselling – Spreading Sustainability Literacy and Guiding Students to build a career
- Awareness Campaigns embracing Sustainability
- Sustainability Oath

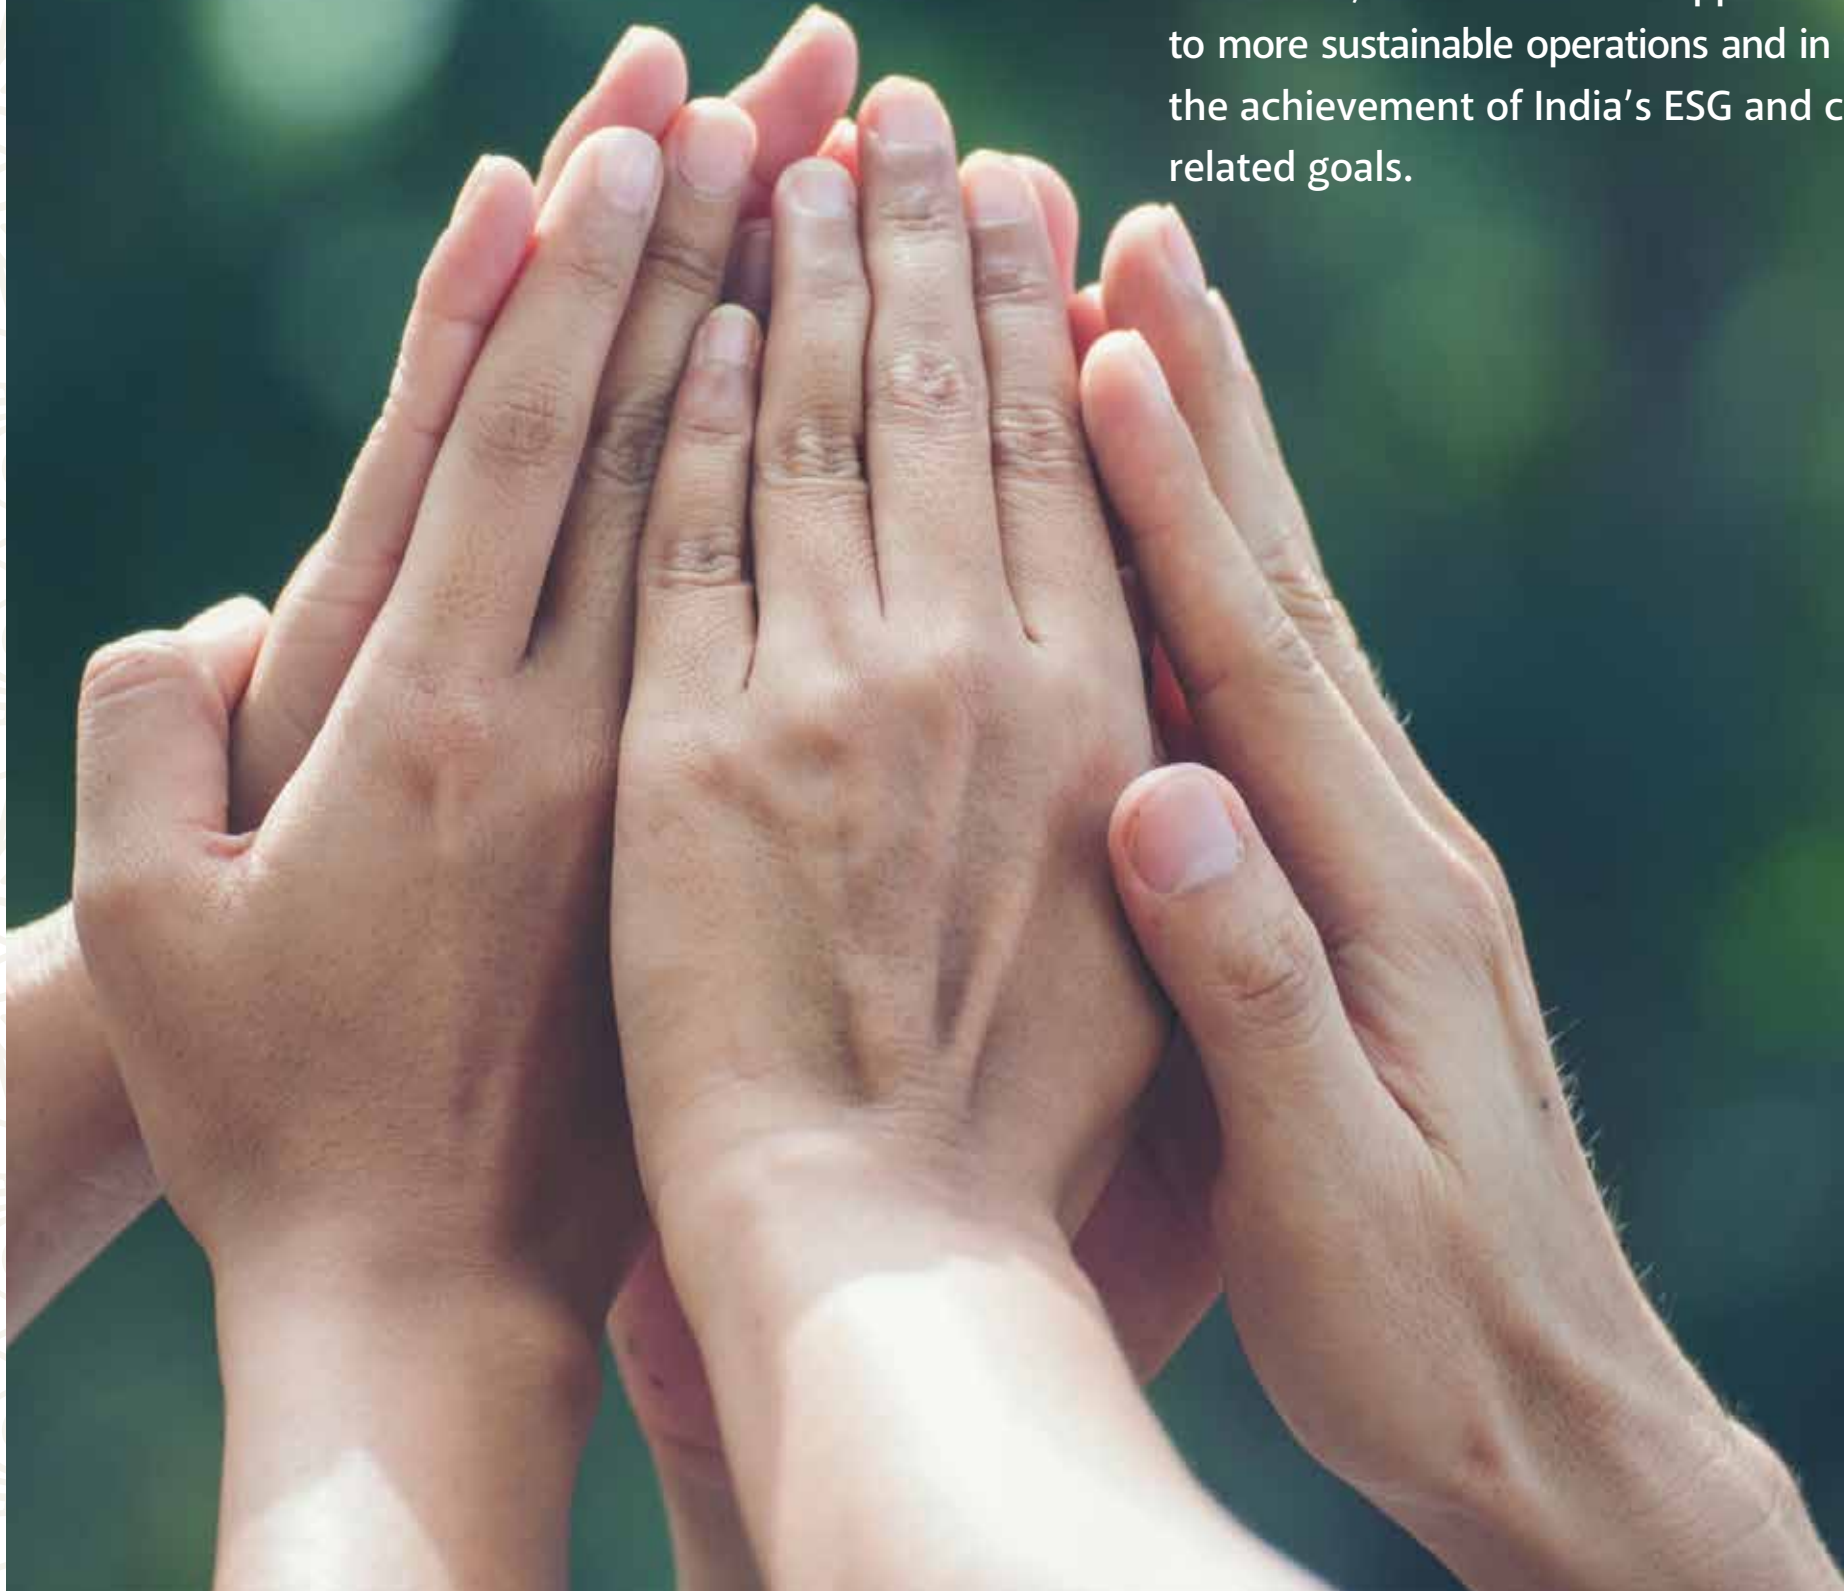

VISION

*Promoting
innovations to
achieve Sustainable
Development in
India, and Globally.
Advocating towards
a Greener and Better
Future.*

MISSION

To spread awareness and educate society about ESG and sustainability issues and work alongside government bodies, private and public sector businesses, and societies to support their transition to more sustainable operations and in turn, enable the achievement of India's ESG and climate related goals.

From the Founder Director

In today's rapidly evolving world, the integration of Environmental, Social, and Governance (ESG) principles is more important than ever for safeguarding our environment and ensuring sustainable development. Businesses are realising that ESG frameworks are a crucial response to the pressing issues of climate change, pollution, and resource depletion. These principles not only guide organizations in minimizing their environmental footprint but also in fostering social responsibility and ethical governance.

In India, the Security and Exchange Board of India (SEBI) has introduced the Business Responsibility and Sustainability Report (BRSR) framework which provides a structured approach for the top 1000 listed companies to disclose their ESG initiatives, demonstrating their commitment to sustainability. The BRSR framework guides companies in reporting their environmental impact, social contributions, and governance practices, making it easier for stakeholders to assess their performance.

The IFRS Foundation, London (UK), has developed globally accepted standards for accounting and sustainability disclosures, helping companies provide reliable information on their sustainability practices. Accepted in 168 jurisdictions, these standards enhance trust, attract responsible investments, and align business growth with environmental and social responsibility.

With environmental challenges becoming increasingly critical, we believe that it is everyone's responsibility to make a positive impact and contribute to a greener future. It can only be achieved with the collective efforts of all of us.

Continuing our efforts, the ERF has engaged 100+ Counsellors across India to spread Sustainability Literacy and to inculcate the seed of sustainability among the students, being the youth and the future of the Nation. We believe that once the younger generation understands the problems and is empowered to take appropriate actions, they can truly make a difference.

The Foundation has also launched Online Certificate Courses: ESG and Sustainability Literacy as well as Fundamentals of ESG and Sustainability in collaboration with Ramanujan College, University of Delhi focusing on the value of fostering and preserving nature and its resources to protect the planet from further deterioration.

Further, the ERF has also launched an Awareness Campaign - "Let us Take a Sustainability Oath Towards Protecting Our Mother Earth". It is a commitment to support building a global community committed to social, economic, and environmental responsibility. With this campaign, we aim to create a pool of Sustainability Warriors to save our Planet through behavioural changes and advocacy for sustainable life.

This is the first edition of the Book which covers details of Awareness Sessions conducted in various Schools, Universities & other organisations at the cost of ESG Research Foundation . It is another step towards enlightening the society at large about this Awareness Campaign to save our Mother Earth.

Let us all come together to create a brighter, greener future. By taking action, both individually and collectively, we can ensure that our planet remains a healthy and vibrant place for generations to come.

CA. (Dr.) Atul Kumar Gupta

Founder and Hon. Director

President ICAI (2020-2021)

Board Member, IFAC, XBRL International Inc.

His unwavering commitment to excellence and dedication to providing superior services have earned him numerous recognitions and achievements, solidifying his reputation as a leader in his field. His leadership and market insights have been instrumental in BnW's growth and success.

CA. Anuj B Golecha
Former CMD, Canara Bank

CA. Anuj Golecha, a dynamic entrepreneur and an avid angel investor started his professional journey in 2003, as a practicing Chartered Accountant. In 2014, he embarked on his venture into angel investments, assembling a personal portfolio that presently spans beyond 100 enterprises as of 2023. In 2016, he co-founded Venture Catalysts Group aiming to reshape the future of investment and incubation.

His journey encapsulates a remarkable blend of innovation, investment, and impact. As an investor driven by passion and an entrepreneur guided by purpose, his steadfast mission is to elevate start-up investments into a formidable asset class. His vision extends beyond financial gains, culminating in a commitment to transform society through the power of entrepreneurship and innovation. His origins in Mumbai find a deeper resonance in Rajasthan, where his family's ethos shapes philanthropic initiatives. With a focus on education and healthcare for the underserved, his contributions materialize through support for a college and a hospital project in Rajasthan. Additionally, committed to community enrichment, he serves as a dedicated trustee for Gurukulam School.

Awareness Campaigns and Embracing Sustainability

As we all are aware, our planet is undergoing a profound crisis characterized by climate change, pollution, loss of biodiversity, depletion of resources, and the disruption of ecological balance. The impacts of climate change, such as rising temperatures, melting glaciers, and increased frequency of extreme weather events, threaten the very fabric of life on Earth. Pollution from industrial activities, plastic waste, and toxic chemicals contaminate air, water, and soil, posing severe health risks to humans and wildlife alike. The loss of biodiversity, driven by habitat destruction, overexploitation, and climate change, endangers countless species and undermines ecosystem services that are vital for human survival. Additionally, the relentless depletion of natural resources, including forests, water, and minerals, jeopardizes future generations' ability to meet their needs. The disruption of ecological balance, resulting from unsustainable agricultural practices and urbanization, further exacerbates these challenges.

The longer we continue with unsustainable development, the more severe the consequences will be. If immediate and decisive action is not taken, we risk irreversible damage to our planet's ecosystems and the services they provide. It is high time to take action to repair the damages that humanity has inflicted on the planet and to transition towards a sustainable future.

In this regard, ERF has launched an Awareness Campaign focusing on the value of fostering and preserving nature and its resources. This initiative aims to protect the planet from further deterioration by promoting practices that are environmentally responsible and sustainable. Through this campaign, ERF seeks to educate and inspire individuals and communities to take proactive steps in conserving natural habitats, reducing waste, and adopting renewable energy sources. By raising awareness about the importance of biodiversity, resource conservation, and ecological balance, ERF hopes to instill a sense of stewardship and responsibility towards the environment.

This initiative will not only help in saving Mother Earth but also will provide valuable opportunities for students to build their careers in the field of sustainability. By participating in this campaign, students will gain hands-on experience and knowledge about sustainable practices, and environmental conservation. This exposure will prepare them for future roles as leaders and innovators in the sustainability sector, where they can contribute to creating a more resilient and sustainable world. Ultimately, our Awareness Campaign is a step towards ensuring that future generations inherit a planet that is healthy, vibrant, and capable of supporting life in all its diversity.

Executive Development Programme

ERF also conducts an Executive Development Programme for the executives of PSUs, Corporates, Banks, etc. However, along with these changes, we are also facing significant global challenges that demand our immediate attention and collective action.

This programme emphasizes the importance of ethical governance in business and stresses the need for social practices like gender diversity, work-life balance, skill development, employee recognition, and fair labour practices. It advocates for social equity, diversity, and community engagement while highlighting the necessity of robust governance structures to ensure ethical decision-making, transparency, and accountability. By adopting ESG principles, businesses can play a crucial role in addressing pressing global issues. Environmental initiatives such as reducing carbon footprints, implementing renewable energy sources, and promoting sustainable supply chains help mitigate climate change. Social policies focusing on employee welfare, equitable opportunities, and community development reduce social inequalities. Strong governance practices ensure companies operate with integrity, fostering trust and long-term sustainability.

The integration of ESG frameworks is not just a moral imperative but also a strategic advantage. Companies that prioritize ESG are better positioned to manage risks, attract responsible investors, and build resilient business models. As stakeholders increasingly demand greater accountability and sustainability, ESG-aligned organizations are likely to enjoy enhanced reputations and sustained growth. Ultimately, embracing ESG principles helps create a more just, equitable, and sustainable world for all. Learning the essentials behind ESG is becoming more and more important for corporate teams so that they can adapt to a world that rapidly requires an understanding of the latest policies and reporting requirements surrounding sustainability.

Environmental, Social and Governance (ESG) & Sustainability - Way Forward

17th to 18th May, 2022

Environmental, Social and Governance (ESG) & Sustainability - Way Forward

17th to 18th May, 2022

Highlights of PRITHVI AWARDS 2023

ESG Research Foundation confers Prithvi Awards every year recognising Sustainability Icons in the field of ESG and Sustainability under various categories - Corporates, PSUs, Startups, NGOs, Self Help Groups (SHGs), Environmentalists Individuals, etc. The prestigious Prithvi Awards encourage Businesses to achieve Sustainability in their operations to support India's Mission towards Net Zero.

In 2023, ERF organised the Prithvi Awards along with the Two Days Global Conference, wherein, Sustainability Icons from the above categories were recognized as decided by the eminent Jury members based on the nominations received, under various categories.

The Global Conference on ESG & Prithvi Awards-2023 is a part of ERF's ongoing efforts to promote ESG awareness and support organizations in their ESG initiatives. It brought together leaders, experts, and organizations committed to driving sustainable change. Through engaging in discussions and knowledge exchange, sincere efforts were made to raise awareness about the importance of ESG practices and their potential to achieve commercial objectives while creating a positive impact on the environment and societies. The Event was a grand success.

The Chief Guest at the conference was Hon'ble Shri Arjun Ram Meghwal, Union Minister of Law and Minister of State for Parliamentary Affairs & Culture, Government of India (GOI).

Guests of Honour:

- Sh. Rajiv Kumar Former Vice Chairman Niti Aayog (GOI)
- Sh. M V Rao CEO & MD Central Bank of India
- Vivek Anand Oberoi Indian Film Actor and Environmental Enthusiast
- Sh. Abhay Bhutada MD Poonawalla Fincorp
- Dr Deepak Jain, Director General, Federation of Indian Industry
- CA Praveen Garg (IAS Retd.), Former Special Secretary Ministry of Environment, Govt. of India.

Awareness Campaigns Embracing Sustainability

Sustainability Oath - Creating Sustainability Warriors

With environmental challenges becoming increasingly critical, we believe that it is everyone's responsibility to make a positive impact and contribute to a greener future.

Sustainability Oath is a commitment to support the building of a global community committed to social, economic, and environmental responsibility to save our mother earth through behavioural changes and advocacy for sustaining life. In this regard, we invite you to participate in our endeavour by taking the Oath to inculcate sustainability into our lives through these small changes. It is a commitment to support in building of a global community committed to social, economic, and environmental responsibility to save our mother earth through behavioural changes and advocacy for sustaining life.

Take an Oath
Join the Movement for a Healthier Planet
Your Commitment Matters

Pledge Partner - Sahayog

Sahayog is a “Social Enterprise” focused on uplifting society through education, Banking, and health, particularly targeting women, farmers, youth, and weaker sections. It operates in Banking, Healthcare, and Education to drive social reform and nation-building

"Save Trees, Save Life – Let's Grow Together!"

Save Our Tree
Save Our Life

Pledge Partner - Relaxo

An awareness program focused on environmental, social, and governance (ESG) aspects was conducted at Padmaraj Ariga Bharatesh College of Business Administration in Belgaum, Karnataka, on 18th December 2023. A total of 100 students actively participated in the program, where insights were shared on environmental problems, global warming, and the importance of conserving natural resources. The session provided a comprehensive understanding of environmental aspects, highlighting the need for sustainable practices and responsible governance.

Following the program, a Q&A session was conducted to address students' doubts and queries, further enhancing their knowledge and engagement with the subject matter. This interactive approach not only raised awareness about ESG issues but also empowered students to become proactive advocates for environmental conservation and ethical governance practices in their academic and professional endeavors.

Navrachana English Medium School

An impactful awareness program focusing on Environmental, Social, and Governance (ESG) aspects was meticulously organized at Navrachana English Medium School in Nashik on 8th January 2024. The session witnessed active participation from 146 students who enthusiastically engaged in various activities aimed at deepening their understanding of environmental challenges and exploring sustainable solutions. The session was designed to create an enriching learning journey through a range of interactive activities.

These activities included group brainstorming sessions, where students collaboratively identified key environmental issues and proposed innovative solutions. Additionally, students showcased their creativity through slogan writing and satirical poems addressing environmental challenges, highlighting their awareness and concern for pressing sustainability issues.

Furthermore, the program provided valuable insights into career opportunities within the ESG domain, broadening students' perspectives on sustainable practices and ethical governance. By fostering a holistic approach that combined education, creativity, and career exploration, the program empowered students to become conscientious stewards of the environment and advocates for sustainable development in their communities and beyond.

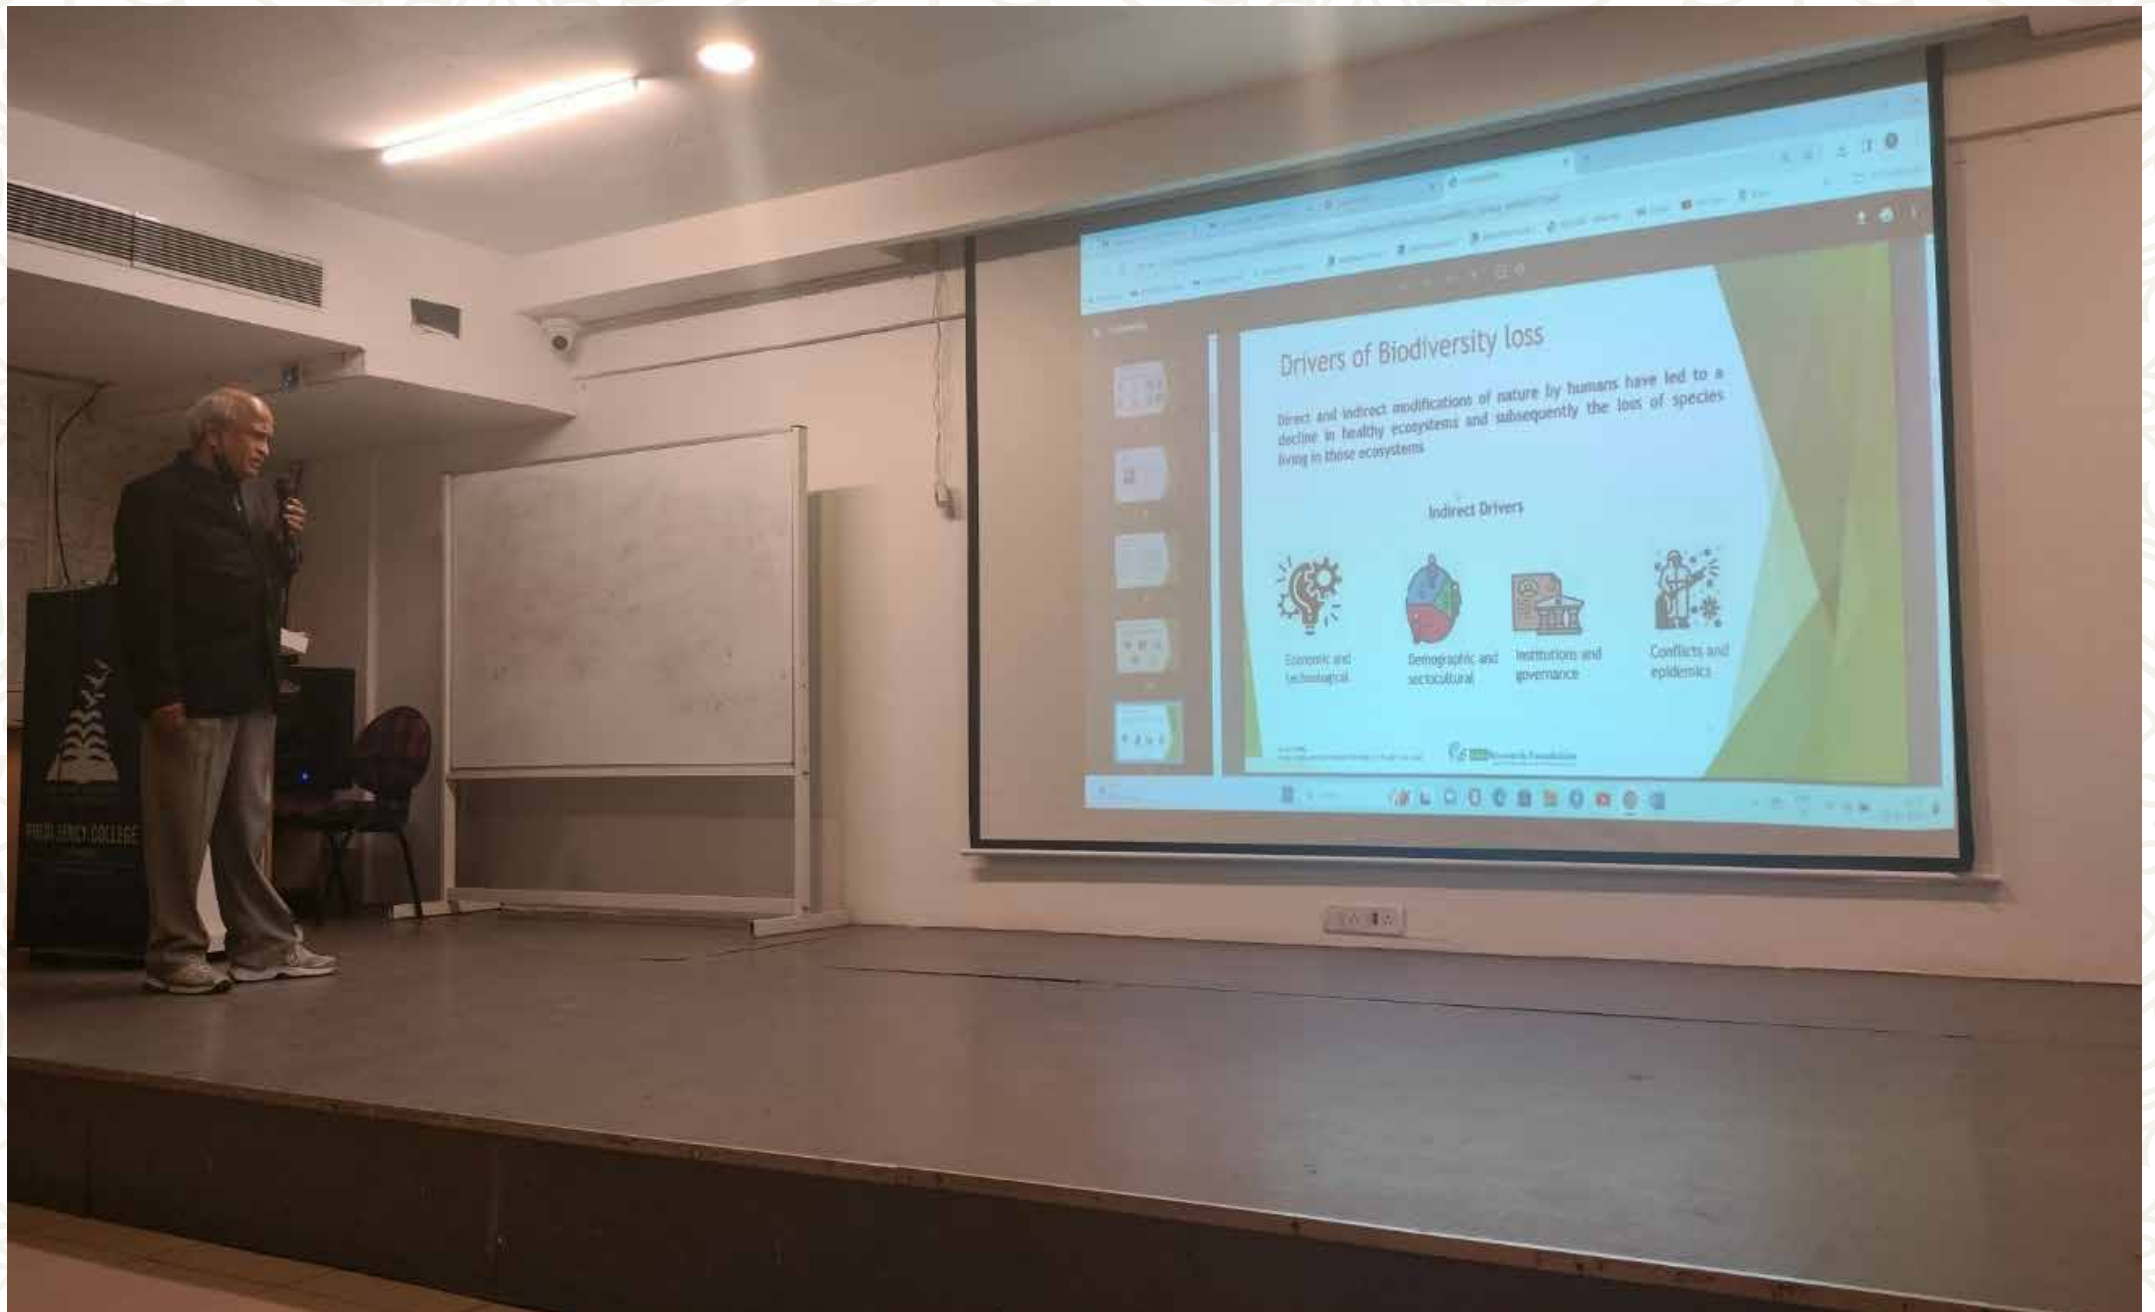

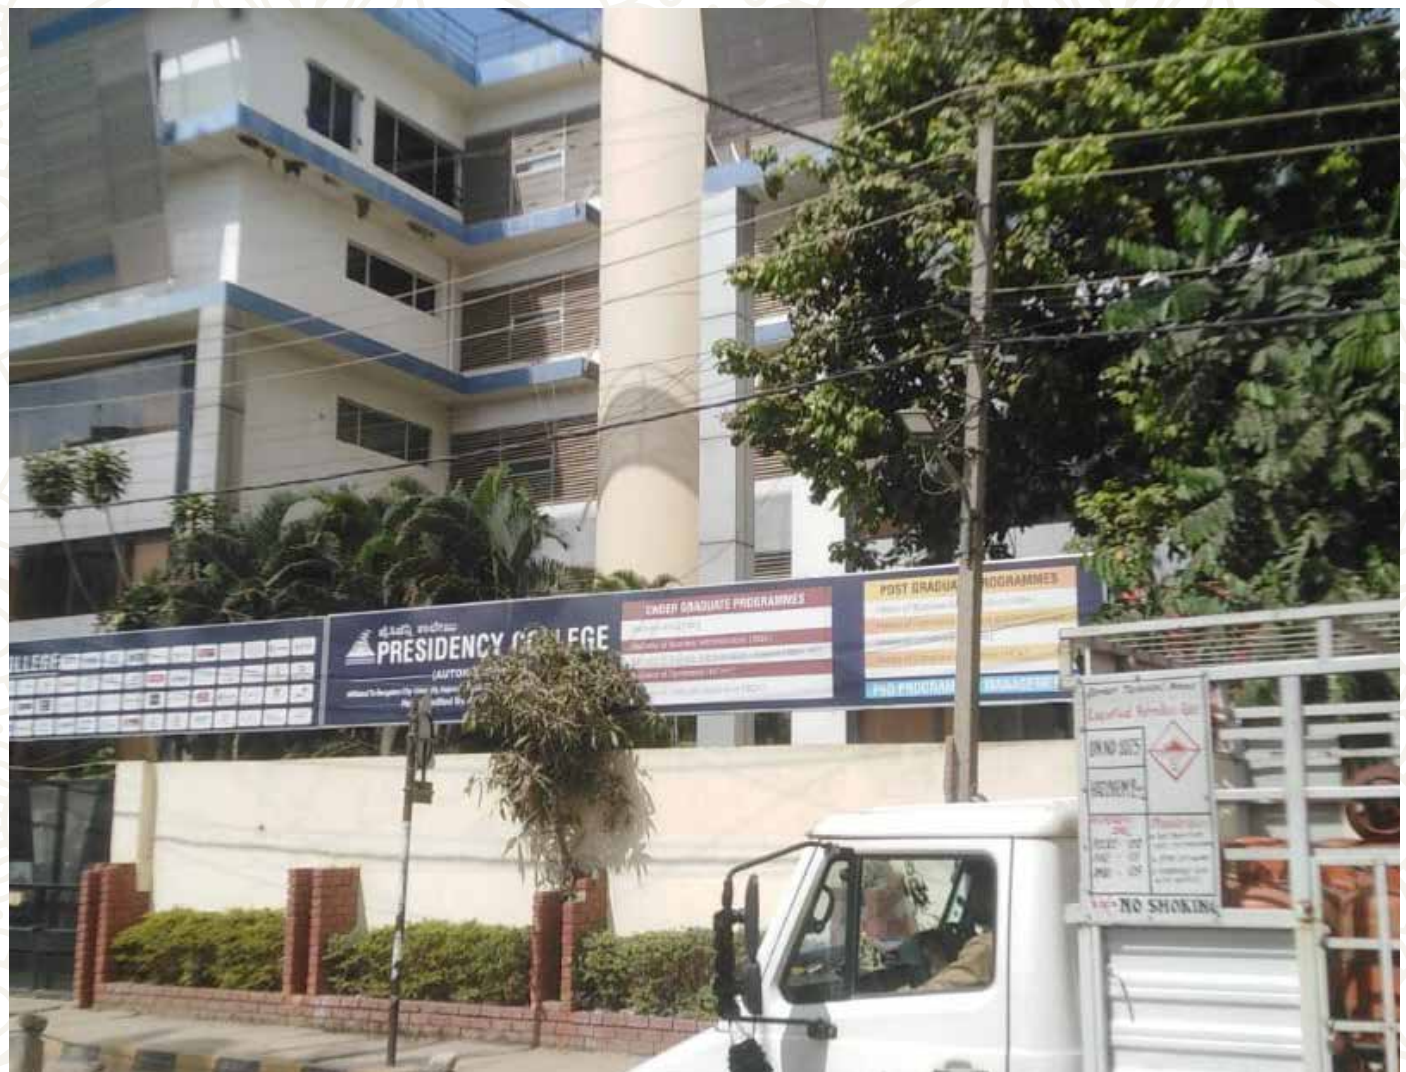

Presidency College -Presidency Business School

A lecture covering aspects of Environmental, Social, and Governance (ESG), sustainability, and climate change was conducted at the Presidency School of Business, Presidency College in Bengaluru, Karnataka, on 28th December 2023. The session witnessed the active participation of 180 participants, engaging in thought-provoking conversations that heightened their understanding and awareness of ESG principles.

The session provided valuable perspectives on environmental and climate change concerns, equipping students with the knowledge and insights necessary to address these critical issues. This initiative not only raised awareness but also encouraged students to adopt responsible practices.

Madhyamik Vidhaya Mandir

A transformative awareness program focusing on Environmental, Social, and Governance (ESG) aspects was meticulously organized at Madhyamik Vidhya Mandir School in Nashik, Maharashtra, on 18th December 2023. This impactful session witnessed the enthusiastic participation of 250 students, demonstrating their keen interest in exploring the vital themes of ESG and sustainability.

The session was designed to provide an interesting learning experience to the students with different activities. There were quizzes to check how well the students understood sustainability and climate change topics. Also, the participants got an opportunity to give speeches, which helped them share what they learned and present their thoughts and ideas about ESG, sustainability and climate change.

Wagh Guruji Bal Shikshan Mandir

An insightful session focused on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was conducted at Wagh Guruji Bal Shiksha Mandir School in Nashik on 9th January 2024. The session witnessed active participation from 211 students who enthusiastically engaged in informative and interactive activities. These activities were designed to enhance their understanding of key environmental issues and inspire a passion for sustainability.

Through discussions, interactive exercises, and informative presentations, the session ignited a sense of responsibility and awareness among the students regarding the importance of sustainable practices. The program aimed to empower the students with knowledge and skills that would enable them to make informed choices and contribute positively to addressing environmental challenges.

New Maratha High School

An impactful awareness session covering various aspects of Environmental, Social, and Governance (ESG) along with Climate Change was organized at New Maratha High School in Nashik on 10th January 2024. The program witnessed an overwhelming response, with a remarkable attendance of 674 students.

The session was designed to offer a comprehensive learning experience with various interactive activities. These activities included group debates, where students could discuss and analyze different perspectives concerning environmental challenges and sustainability, promoting critical thinking and teamwork skills. Additionally, students were guided on creating seed banks and seed bombs, fostering a hands-on understanding of environmental conservation and sustainable practices.

Karmveer Bhausaheb Hire Vidhyalay

A holistic session encompassing a wide range of Environmental, Social, and Governance (ESG) aspects alongside sustainability was meticulously arranged at Karmveer Bhausaheb Hiray Vidhyalaya in Nashik, Maharashtra, on 13th January 2024. The substantial turnout of 183 students underscored the school community's profound interest and proactive involvement in comprehending sustainable methodologies and addressing pertinent environmental challenges.

Beyond merely raising awareness, this initiative inspired students to take on proactive roles as agents of change, fostering a collective ethos towards constructing a future that prioritizes sustainability and responsible stewardship of resources. The session's impact goes beyond immediate education, instilling in students a sense of responsibility and empowerment to actively participate in initiatives that promote sustainable living and ethical governance. By engaging with ESG and sustainability principles at an educational level, students are not only equipped with knowledge but also motivated to translate this understanding into tangible actions that contribute positively to the global sustainability agenda.

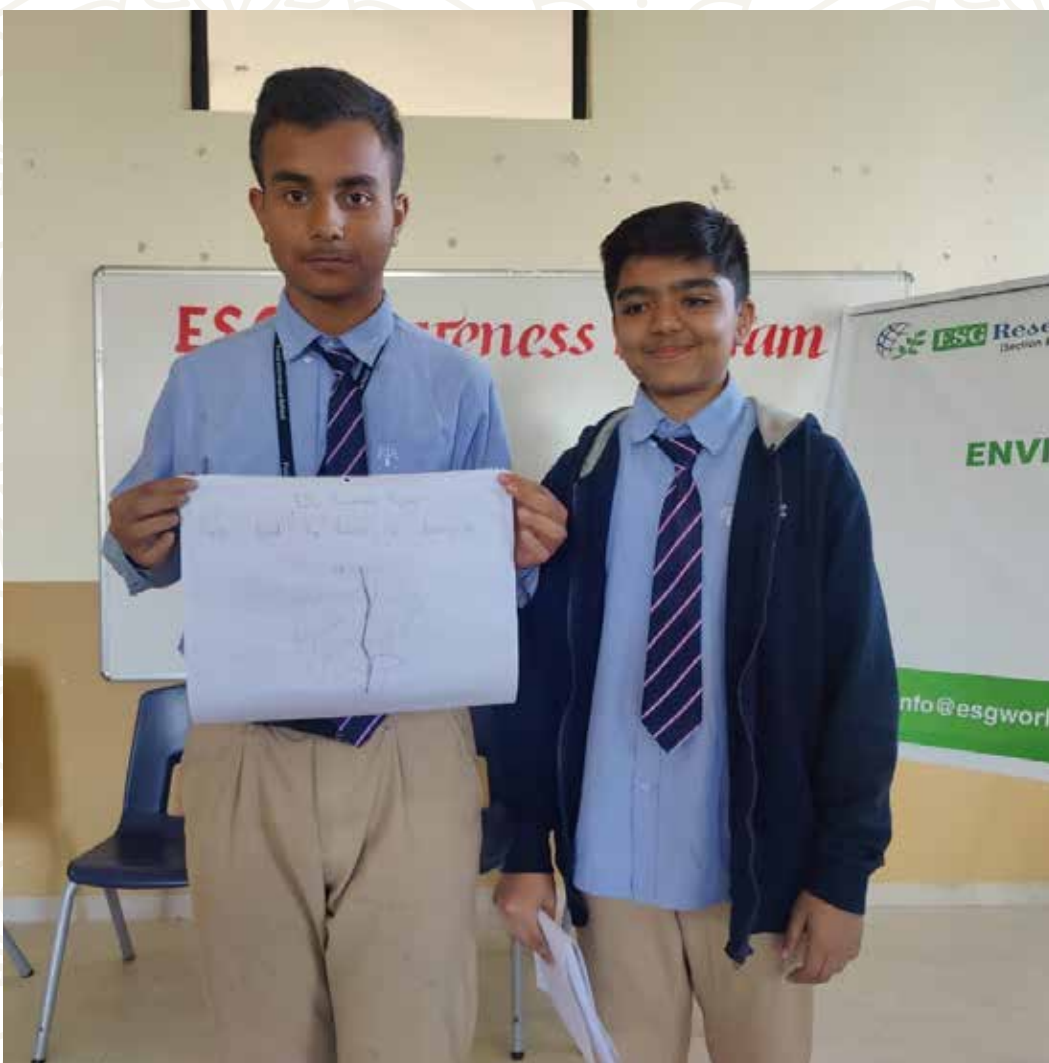

Podar International School

An impactful awareness program focused on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was conducted at Podar International School in Gangapur, Nashik, on 16th January 2024. The program witnessed active participation from 62 students, who engaged in various activities designed to deepen their understanding of key environmental and social issues.

The activities included brainstorming sessions, where students collaboratively identified challenges related to sustainability and climate change. They also participated in debates about sustainable development, exchanging diverse perspectives and exploring potential solutions. Additionally, impromptu slogan-making exercises were conducted, encouraging students to creatively express their thoughts and ideas on environmental stewardship. Through these interactive activities, students not only enhanced their understanding of ESG and sustainability principles but also were encouraged to actively contribute to sustainable practices in their daily lives and communities. The program played a role in empowering students and fostering a sense of responsibility towards building a more sustainable and equitable future.

Sindhu Sagar Academy English Medium High School

An engaging session on Environmental, Social, and Governance (ESG) aspects and sustainability was organized at Sindhu Sagar Academy English Medium High School in Nashik, Maharashtra, on 17th January 2024. The session saw the enthusiastic participation of 85 students who actively engaged in discussions with the counsellor, delving into various aspects of environmental, social, and governance issues.

Students showcased their creativity and understanding of ESG concepts through engaging group presentations related to the topics discussed. This interactive approach not only deepened their understanding of sustainability and climate change but also encouraged them to express their thoughts creatively, making the session both informative and entertaining.

Bright Spark English Medium School

A comprehensive program centred on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was organized at Bright Sparks English Medium School in Nashik, Maharashtra, on 19th January 2024. The program attracted significant interest, with 74 students actively participating and engaging in discussions about sustainable practices and climate change.

The art sessions during the program were a highlight, providing a unique and expressive platform for participants to delve into environmental issues. Through various artistic mediums such as painting and drawing, students were able to visually communicate their thoughts, emotions, and ideas related to sustainability and climate change. These sessions not only encouraged creativity but also facilitated deeper reflection and understanding of environmental and sustainability concepts. Participants had the opportunity to showcase their artistic talents while exploring meaningful themes, contributing to a rich and engaging learning experience.

Maratha Light Infantry Regimental Centre

Two enlightening awareness programs were conducted on aspects of Environmental Social and Governance(ESG), sustainability and climate change. These sessions were held at The Maratha Light Infantry Regimental Centre Belgaum, Karnataka on 24th January 2024, and were attended by the Serving Officers, Junior Commissioned Officers, Other Ranks, and Pensioners, totaling 200 participants.

The content covered vital topics such as Sustainability and Protection of our Planet Earth, which hold immense importance for the Indian Army. The sessions were highly educative and beneficial for the participant community, providing valuable insights into environmental protection, social responsibility, and responsible governance. The sessions were closely aligned with the infantry's training curriculum and well-received, with participants expressing sincere appreciation for the knowledge and perspectives shared, enriching their understanding and commitment to ESG principles.

Chanabasappa Karale Arts & Commerce Degree College

An engaging program focusing on Environmental, Social, and Governance (ESG) aspects was thoughtfully arranged for students pursuing B.A and B.Com courses at Chanabasappa Karale Arts & Commerce Degree College in Examba, Karnataka, on 5th February 2024. The program witnessed the active participation of 90 students, showcasing their keen interest in understanding and engaging with topics related to environmental sustainability and corporate responsibility.

Through interactive sessions and group activities, the program facilitated a collaborative learning environment, enabling students to share diverse ideas and perspectives on crucial issues. Furthermore, participants had the valuable opportunity to delve into practical solutions and strategies aimed at addressing environmental challenges within their respective communities, fostering a culture of proactive engagement and responsible citizenship among the student body.

Seshadripuram Law College

A session dedicated to Environmental, Social, and Governance (ESG) aspects was organized at Seshadripuram Law College in Bangalore, Karnataka, on 6th February 2024. The session attracted 107 students enrolled in the LLB program, providing them with valuable insights into the multifaceted realm of ESG.

Apart from discussing core ESG principles, the session also shed light on the diverse career opportunities available in this expansive field. By focusing not only on theoretical knowledge but also on practical applications and career prospects, the session aimed to equip students with a comprehensive understanding of ESG and its significance in various sectors. This approach not only enhanced students' awareness of global sustainability challenges but also inspired them to consider impactful roles in promoting ethical governance, environmental stewardship, and social responsibility.

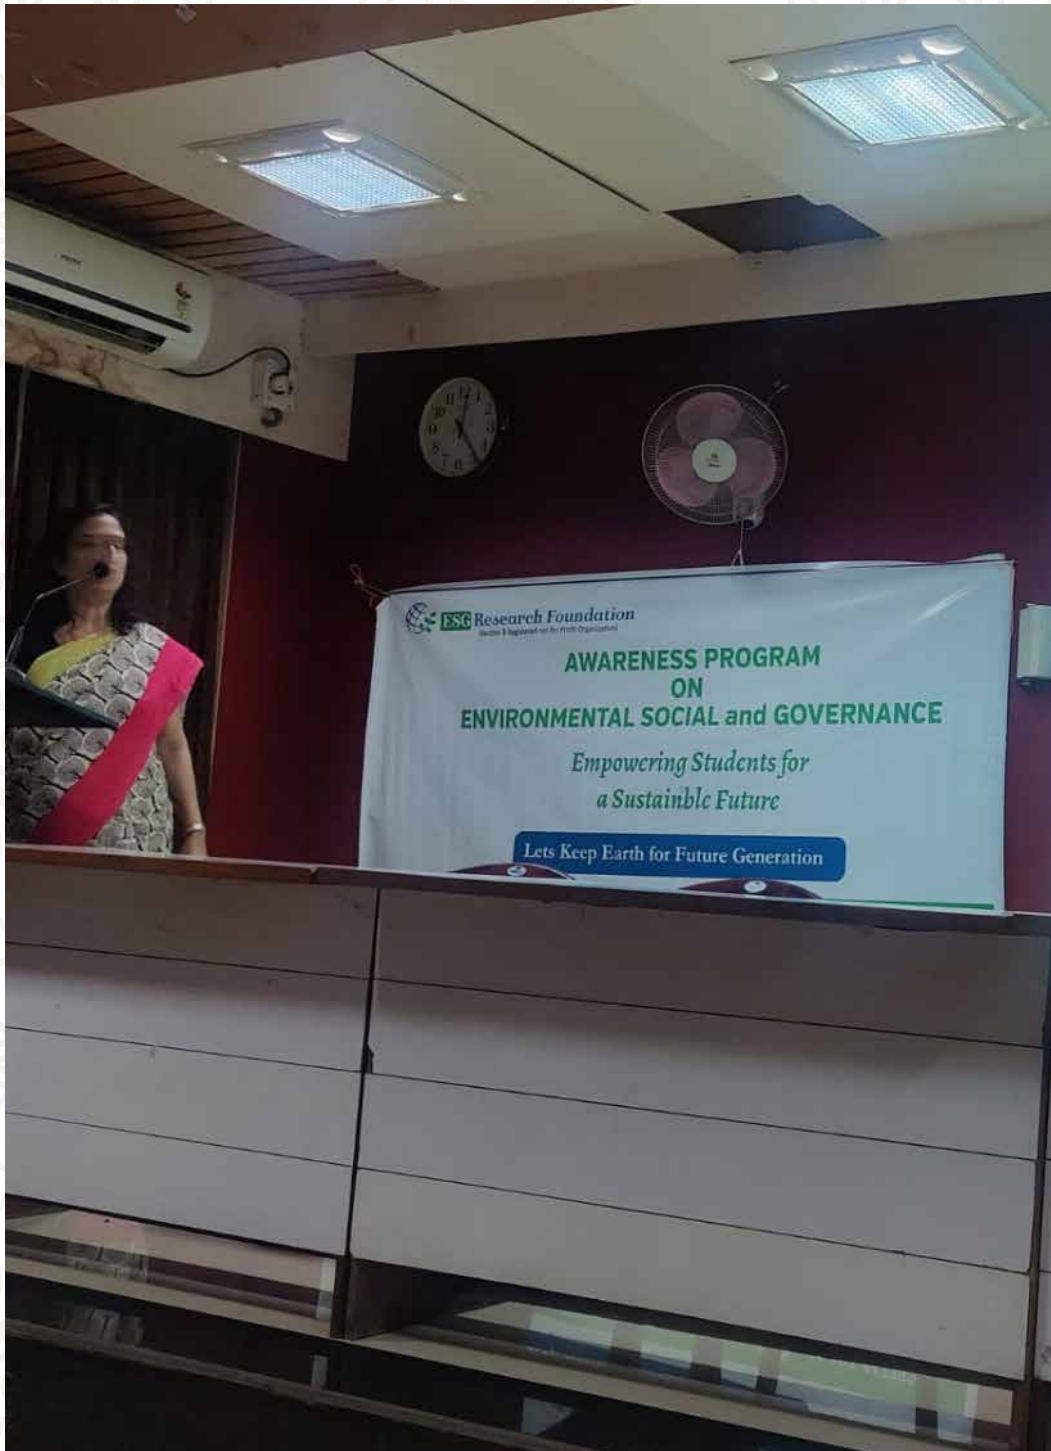

Vishwas Vidyaniketan

An enlightening awareness session focusing on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was meticulously organized for students of grades 5th to 12th at Vishwas Vidyaniketan & Jr College in Sangli on 8th February 2024. The session was attended by 163 students who actively participated in discussions and activities aimed at enhancing their understanding of critical environmental issues.

The program was well-received by both students and the management, appreciating its informative and impactful nature. Through engaging discussions and interactive activities, students gained valuable insights into the importance of sustainable practices, ethical governance, and addressing climate change challenges. This initiative not only raised awareness but also inspired students to become advocates for environmental conservation and responsible citizenship.

An impactful awareness program focused on Environmental, Social, and Governance (ESG) aspects was held on 12th February 2024 at K.R.T. Arts, B.H. Commerce, and A.M. Science (KTHM) College in Nashik, Maharashtra. The program saw the active participation of 120 students, highlighting their interest and commitment to addressing key sustainability issues.

The session offered various ways for students to explore and express their thoughts about environmental challenges and solutions. Slogan-making allowed for creative expression and advocacy, while role plays delved into diverse perspectives on ESG and sustainability issues. Art sessions provided a visual outlet for participants to share their ideas about these topics.

Sou R P Mane Kanya Madhymik Vidhyalay

An insightful awareness program focusing on Environmental, Social, and Governance (ESG) aspects was conducted for 80 students of Sou. R.P. MANE Kanya Madhyamik Vidyalay in Shirol, Maharashtra, on 12th February 2024.

The program aimed to educate students about crucial concepts such as climate change and sustainability, providing them with valuable insights into global environmental challenges. The informative session was well-received by the participants, who appreciated the opportunity to learn about these important topics. Through engaging discussions and informative presentations, the program successfully exposed students to key ESG principles, fostering a deeper understanding of their roles in promoting environmental stewardship and responsible practices. This initiative not only raised awareness but also inspired students to take proactive steps towards building a more sustainable and ethical future.

New English School, Mouje Agar

An interactive and informative program focusing on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was conducted at New English School in Mouje Agar, Shirol, Maharashtra, on 12th February 2024. The program saw the active participation of 78 students who engaged in various activities aimed at deepening their understanding of environmental issues.

One of the highlights of the program was a poster-making competition, where students showcased their creativity and expressed their views on environmental conservation. This activity fostered a sense of participation and responsibility towards environmental conservation among the students. The program was well-received, and students appreciated the discussions and insights gained during the session, highlighting their interest and commitment to sustainable practices.

St. Mary's School

An impactful awareness program on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was conducted at St. Mary's High School in Belgaum, Karnataka, on 17th February 2024. The program saw active participation from 100 students, who delved into discussions about the challenges posed by global warming and environmental pollution.

During the session, the importance of conserving natural resources was emphasized, sparking engaging discussions among the students. The program proved to be highly engaging and informative, as the children were intrigued by the subject matter and expressed their curiosity through insightful questions. This initiative not only raised awareness about environmental issues but also empowered students to become advocates for responsible environmental stewardship. It encouraged them to take proactive steps towards addressing global challenges and promoting sustainable practices for a better future.

Jyoti Model School

An interactive and informative program focusing on the fundamentals of Environment, Social, and Governance (ESG) was conducted on 17th February 2024 at Jyoti Model Sr. Secondary School in Ashok Nagar, Delhi. The program was attended by 121 students from classes VIII and IX, who actively participated in the engaging session and insightful discussions.

The program aimed to enhance students' awareness and knowledge of ESG principles, particularly regarding environmental and climate change issues. Through interactive activities and discussions, students gained valuable insights into the importance of responsible environmental stewardship and ethical governance practices. As a gesture to further inspire students to take practical steps towards sustainability, the counsellor handed out eco-friendly plantable seed pens after the session. This initiative not only reinforced the concepts discussed during the program but also encouraged students to embrace sustainable practices in their daily lives, contributing positively to environmental conservation efforts.

St. Elizabeth Convent School

An awareness program focused on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was organized at St. Elizabeth Convent High School in Holi Bazar, Vasai, Palghar on 29th February 2024. The program witnessed a total attendance of 85 students, who displayed strong enthusiasm and a proactive approach towards exploring sustainable practices and addressing climate change issues.

The session was designed to facilitate a comprehensive learning journey through diverse interactive activities. These encompassed quizzes to assess participants' understanding of ESG concepts, speeches enabling them to share insights and guide peers, and group engagements like debates and the creation of seed banks, promoting critical thinking and collaboration. Additionally, the slogan-making sessions provided an avenue for creative expression in advocating for environmental stewardship and ethical governance, while role plays deepened understanding by exploring diverse perspectives on real-world environmental challenges. The session also offered a creative platform through artwork sessions, allowing participants to convey their thoughts and emotions visually about ESG topics. Overall, these activities not only deepened the participants' knowledge of ESG principles but also empowered them to drive positive change towards a more sustainable and equitable world.

Nishkalanka Convent School

An enlightening awareness program focusing on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change was organized at Nishkalanka Convent School in Vasai West, Maharashtra, on 29th February 2024. The program was attended by 62 enthusiastic students from Class III to Class VII, showcasing their interest and concern for environmental and societal issues.

This initiative played a pivotal role in empowering students by providing them with valuable insights into ESG principles and their importance in building a sustainable future. Through interactive discussions, informative sessions, and engaging activities, students gained a deeper understanding of environmental responsibility, social impact, and ethical governance practices. The program not only raised awareness but also inspired students to take proactive steps towards creating positive change in their communities and beyond, emphasizing their role as future leaders in sustainability and responsible citizenship.

Holy Family Convent School & Jr. College

The awareness program focusing on Environmental, Social, and Governance (ESG) aspects was meticulously organized at the Holy Family Convent High School and Jr College in Palghar, Maharashtra, on 1st March 2024. The program garnered significant attention and participation from the enthusiastic students of Class IXth, with 350 students actively engaging in the sessions.

The session was structured to offer an immersive learning experience through diverse interactive activities. These encompassed quizzes, speeches and group engagements like debates. Additionally, the slogan-making sessions provided an avenue for creative expression in advocating for environmental stewardship. Overall, these activities not only deepened the participants' knowledge and skills in ESG and climate change but also encouraged them to drive positive change towards a more sustainable and equitable world.

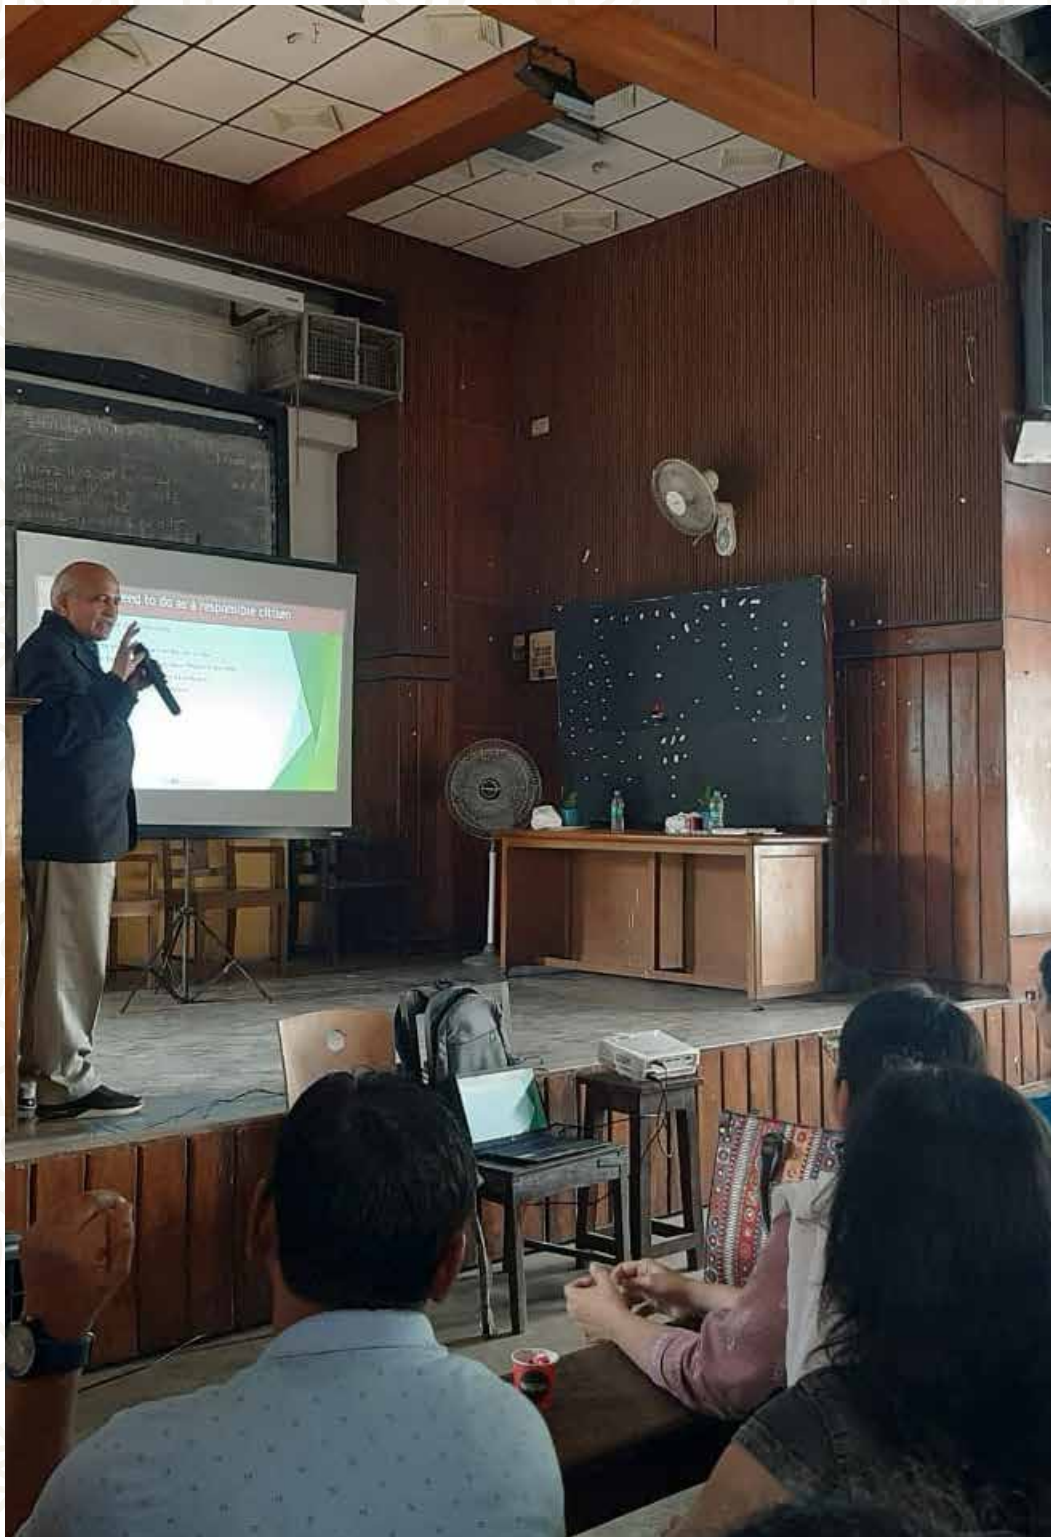

Jogesh Chandra Chaudhuri College

An enlightening session centred on Environmental, Social, and Governance (ESG) aspects was meticulously orchestrated at Jogesh Chandra Chaudhuri College in Kolkata, West Bengal, on 1st March 2024. The session attracted a diverse group of participants, including 100 students pursuing different streams of graduation-level courses such as B.A, B.Sc, and B.Com, in addition to 18 esteemed faculty members.

Delving beyond theoretical knowledge, the session provided valuable insights into the myriad career opportunities thriving within the ESG domain. Students were particularly inspired to consider roles as ESG professionals, with a special emphasis on those with a solid background in management, igniting their aspirations towards meaningful contributions in sustainability and ethical governance sectors.

St Gonsalo Garcia College of Arts and Commerce

A thought-provoking program focusing on Environmental, Social, and Governance (ESG) principles and Sustainability was organised at St. Gonsalo Garcia College of Arts & Commerce in Vasai, Maharashtra, on 2nd March 2024. The program witnessed the enthusiastic participation of 102 students, reflecting their keen interest in gaining deeper insights into crucial topics such as climate change and sustainability.

This initiative served as a catalyst in empowering these young minds, equipping them with a deeper understanding and a heightened sense of commitment towards building a sustainable future. The interactive nature of the program encouraged students to share their insights, thoughts, and relevant information related to the discussed issues, reflecting their genuine engagement and enthusiasm during the session. The overwhelming response from the students underscored the success of the initiative, highlighting their eagerness to contribute meaningfully towards environmental conservation, and social responsibility.

Shree Padmaraje Vidhyalay and Jr. College

A dynamic awareness program focused on Environmental, Social, and Governance (ESG) aspects was meticulously organized for Class XI students of Shree Padmaraje Vidhyalay & Jr College in Shirol, Maharashtra, on 4th March 2024. The program garnered the participation of 127 students, showcasing their keen interest in delving deeper into ESG concepts and their real-world relevance.

This initiative played a pivotal role in empowering students by providing them with valuable insights into ESG principles and their importance in building a sustainable future. Through interactive discussions, informative sessions, and engaging activities, students gained a deeper understanding of environmental responsibility, social impact, and ethical governance practices

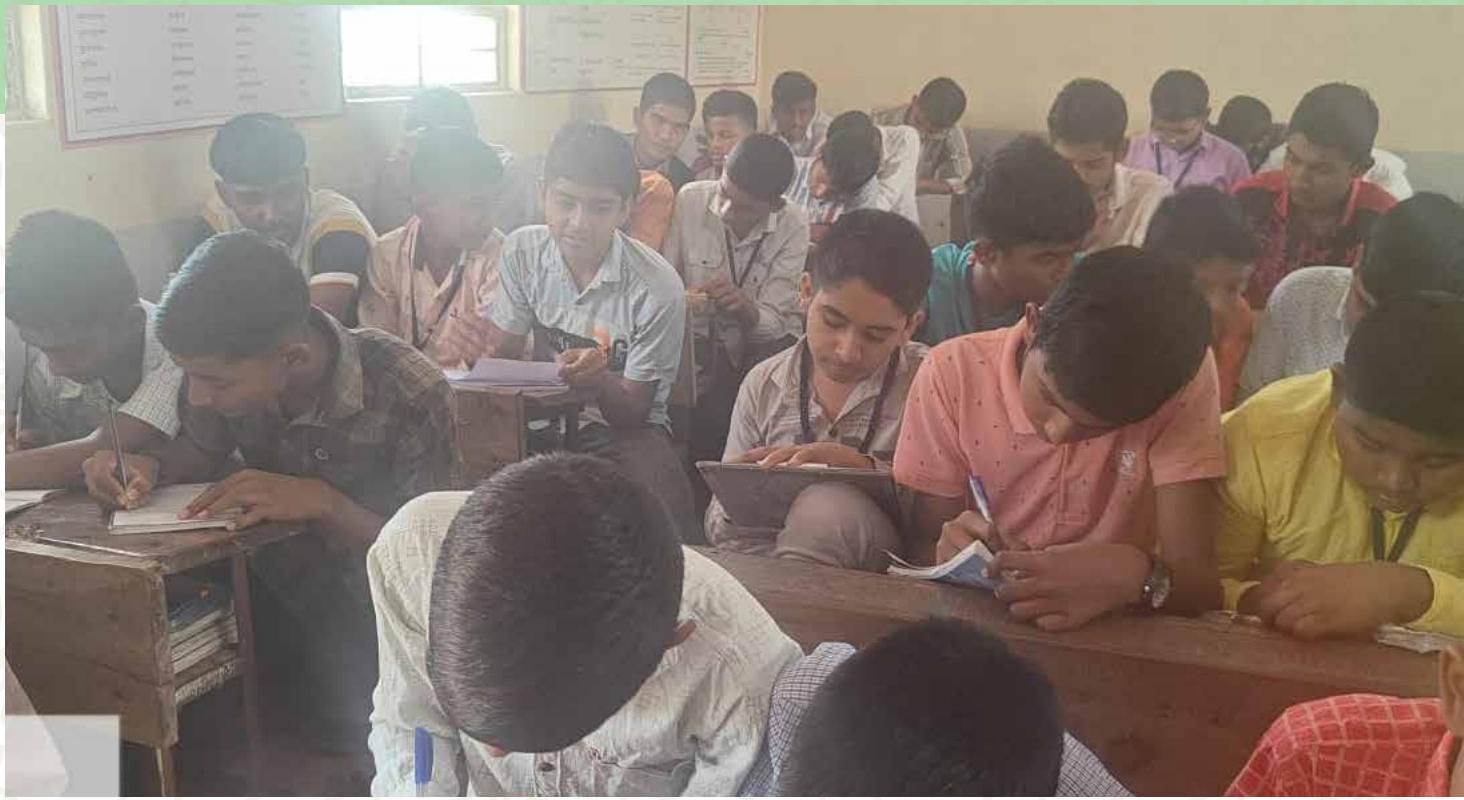

Ratsagar Highschool Nimshirgaon

An awareness program focused on aspects of Environmental, Social, and Governance (ESG), sustainability, and climate change was conducted at Ratsagar High School in Nimshirgaon, Maharashtra, on 5th March 2024. 81 students attended the program. The students displayed considerable enthusiasm and a proactive approach towards exploring sustainable practices and addressing climate change issues.

The program included discussions and activities aimed at deepening students' understanding of environmental conservation, and social responsibility. The students' active participation and engagement reflect a growing awareness and commitment to addressing environmental challenges through sustainable means. This initiative plays a crucial role in empowering students and fostering a sense of responsibility towards environmental stewardship and ethical practices.

Hasur High School

An enlightening awareness program focusing on Environmental, Social, and Governance (ESG) aspects along with climate change was thoughtfully organized for students of 8th and 9th grade at Hasur High School in Kolhapur on 6th March 2024. The program aimed to educate and raise awareness among young minds about the critical issues of ESG and climate change. The informative sessions were well-received by all 71 participating students, serving as a valuable source of learning and enlightenment.

One of the engaging activities during the program was a poster-making session on the topic of 'Climate Change', where students were encouraged to express their understanding and ideas creatively. This hands-on activity not only enhanced their knowledge but also allowed them to showcase their perspectives on environmental challenges through art and creativity. The program's success and positive feedback highlighted the importance of such initiatives in fostering environmental consciousness and empowering the youth to become active agents of change in addressing global sustainability issues.

Dattajirao High School

An insightful lecture focusing on Environmental, Social, and Governance (ESG) aspects and sustainability was meticulously organized for students of grades 7th to 10th at Dattajirao Kadam High School in Kolhapur on 7th March 2024. The informative session was attended by a total of 81 students, providing them with a comprehensive understanding of crucial environmental issues. The program was highly appreciated by the students and recognized as a great source of learning on the pressing issue of sustainability.

The lecture incorporated engaging discussions, interactive activities, and thought-provoking presentations, creating a dynamic learning environment for the students. Through these activities, the students gained valuable knowledge about how their actions can contribute significantly to saving the planet and promoting sustainable practices. The success of the program underscored the importance of education and awareness in nurturing a generation of environmentally conscious and responsible citizens.

Navjeevan Law College

An enlightening session centered on Environmental, Social, and Governance (ESG) aspects, sustainability, and climate change took place at Navjeevan Law College in Nashik on 6th April 2024. The session saw vibrant engagement from 71 participants, including government officials, CAs, working professionals, and other students.

Participants enthusiastically took part in informative and interactive activities aimed at deepening their understanding of key environmental issues and fostering a passion for sustainability. Through lively discussions, interactive exercises, and insightful presentations, the session kindled a sense of responsibility and awareness among the attendees regarding the significance of sustainable practices. They were encouraged to reflect on day-to-day sustainability challenges and consider their individual contributions. Participants shared the actions they had already taken, and the session also delved into potential job and entrepreneurship opportunities. The overarching goal of the program was to equip participants with knowledge and skills to make informed choices and positively impact environmental challenges. The program not only raised awareness but also inspired participants to take proactive steps towards creating positive change in their communities and beyond, being a responsible citizen.

Navjeevan Institute of Management

An awareness program was conducted by the ESG Research Foundation on 13th April 2024 at Navjeevan Institute of Management, Nashik which was attended by 60 students. The session commenced with an introduction of the speaker and highlighted the pivotal role of the ESG Research Foundation in empowering youth towards a sustainable future. Exploring the three key aspects of Environment, Social, and Governance, the presentation emphasized the abundance of career opportunities in this field and addressed the existing knowledge gaps among youth regarding these opportunities. Following discussions and debates on the causes and consequences of the current environmental crisis, participants engaged in an interactive quiz to raise awareness of these critical issues. They were inspired to become agents of change by exploring various startup and entrepreneurship success stories within the sustainability sector. This encouraged them to envision themselves making a positive impact through innovative ventures and initiatives. The students, intrigued by the potential opportunities, were introduced to a certificate course that aligns with their studies and offers valuable skills highly sought after in the field. They learned how accessible and beneficial this course could be in enhancing their expertise and credentials. The presentation concluded with an interactive question-and-answer session, where students clarified doubts and gained further insights. One of the students delivered a heartfelt vote of thanks, expressing gratitude for the enlightening session and encouraging everyone to embark on their journey towards sustainability with newfound knowledge and motivation.

Podar International School

An awareness session was conducted by the ESG Research Foundation on 25th April 2024 at Podar International School, Deolali which was attended by 150 students. The session commenced with a detailed discussion on the current environmental crisis, emphasizing Earth's urgent call for help symbolized by the "SOS" message. I highlighted the significance of taking proactive measures to address environmental challenges. We also celebrated World Earth Day on April 22nd during the session, focusing on this year's theme of Planet Vs Plastic. The theme underscored the urgent necessity of restoring Earth's ecosystems and promoting harmony between humanity and nature. One of the key concepts explored was "green muscle memory," stressing the need to cultivate sustainable habits that become ingrained in our daily lives to promote lasting environmental conservation.

The session included an interactive quiz to assess students' knowledge and raise awareness about environmental issues. Additionally, students engaged in a class group challenge designed to empower them to take eco-friendly actions during their holidays. This group challenge will be tracked by the teachers in their class Whatsapp group and published on their school page throughout the holidays. Also, the seeds made 'seed bombs' which will be harvested when they return to school in June. Overall, the students' enthusiasm and active participation demonstrated a growing commitment to environmental stewardship.

PN Doshi Womens College

In an engaging initiative, 101 students of PN Doshi Women's College participated in an Environmental, Social, and Governance (ESG) awareness session led by the ESG Research Foundation. The session began with an energetic welcome from the school teacher, who had spearheaded the initiative. Their enthusiasm set the tone for the day and instantly captured the attention of their peers. The session kicked off with interactive activities designed to spark curiosity and critical thinking. Small group discussions on topics like climate change, social responsibility, and ethical governance encouraged students to share their perspectives and brainstorm solutions to real-world challenges. Real-life examples and success stories inspired students to consider their role in creating positive change.

Throughout the session, multimedia presentations featuring informative videos and eye-catching infographics brought ESG concepts to life. From the impact of plastic pollution on marine life to the benefits of fair trade practices, students were captivated by the visuals and eager to learn more.

The session concluded with a lively Q&A session, where students had the opportunity to pose thought-provoking questions to the speakers and discuss pressing issues facing our planet. The insightful dialogue that ensued fostered a sense of empowerment and renewed commitment to making a difference.

As the day drew to a close, students were buzzing with newfound enthusiasm and a sense of responsibility. Armed with knowledge and inspiration, they pledged to take action in their own lives and within their school community. Plans were underway to implement recycling programs, organize awareness campaigns, and advocate for sustainable practices.

In the days following the session, students and teachers alike took time to reflect on the experience. Feedback surveys revealed overwhelmingly positive responses, with many expressing gratitude for the opportunity to learn and be part of something meaningful. The success of the session served as a reminder of the power of education and collective action in shaping a brighter future for all.

B.K.E.& I. Girls Senior Secondary School

An awareness program was conducted by the ESG Research Foundation on 30th April 2024 at B.K.E & I Girls Senior Secondary School which was attended by 114 students.

This session commenced with a detailed discussion on the current environmental crisis, emphasizing earth's urgent call for help symbolised by the SOS message. I highlighted the significance of taking proactive measure to address environmental challenges. This session mainly focus on urgent necessity of restoring earth's ecosystems and promoting harmony between humanity and nature. We also tell about how we can protect our earth and ozone layer from greenhouse gases. We also tell about scarcity of resources and how we can save them. In short, students gain immense knowledge about environmental issues and challenges and also ensure that they will take steps to protect it.

YMCA Centenary School & College

In an era marked by increasing environmental challenges, social inequality, and corporate governance issues, cultivating awareness of Environmental, Social, and Governance (ESG) principles among young minds is crucial. To address this need, the ESG Research Foundation conducted an awareness session at YMCA Centenary School & College in Prayagraj on May 3rd, 2024.

The interactive session delved into fundamental ESG concepts, explaining how both businesses and individuals can integrate these principles into their decision-making processes. Through engaging presentations and discussions, students explored the interconnectedness of environmental preservation, social equity, and ethical governance. The session also focused on the social dimension of ESG, highlighting the importance of diversity, equity, and inclusion in both corporate and societal contexts. Finally, the session emphasized the need for transparency, accountability, and ethical leadership in organizations through its focus on governance integrity.

Anand Institute of Management & Information Science

A special session titled “ESG Insights” was organized by the ESG Research Foundation at Anand Institute of Management & Information Science (AIMIS), Anand. The session began with an introduction to the ESG Research Foundation, its objectives, vision, and mission. It emphasized that ESG considerations go beyond mere compliance, shaping corporate behaviour and fostering resilience in the face of emerging challenges. Drawing on extensive research and data, the session explored the intricate relationship between ESG performance and financial outcomes. It dispelled the myth of a trade-off between financial returns and sustainability, showcasing studies that highlight the positive correlation between strong ESG performance and financial resilience.

The session also provided insights into career opportunities available in the ESG field. The importance of robust ESG frameworks, stakeholder engagement, and metrics for measuring impact were all addressed.

This session by the ESG Research Foundation provided valuable insights, tools, and inspiration for participants to embark on their journey towards sustainable finance and responsible business practices. By leveraging ESG principles as a catalyst for innovation and value creation, organizations can not only enhance their resilience and competitiveness but also contribute to a more sustainable and inclusive future. The total number of students in attendance was 100. The Head of Department of AIMIS, Dr. Bindiya Soni, expressed gratitude to the ESG Research Foundation for conducting such an insightful session with detailed information about ESG. She also appreciated them for enlightening students about various career opportunities in ESG.

Rani Rewati Devi Saraswati Vidya Niketan Inter College

The ESG Research Foundation conducted an awareness session on May 16th, 2024, at Rani Rewati Devi Saraswati Vidya Niketan Inter College in Prayagraj. The goal was to foster a sense of responsibility and sustainability among the 186 students who were present. The interactive session utilized presentations and discussions to introduce fundamental ESG concepts and encourage students to explore the interconnectedness of environmental preservation, social equity, and ethical governance. Here, the focus was on cultivating environmental awareness. Students delved into ecological issues like climate change, pollution, and biodiversity loss. The session encouraged students to reflect on their ecological footprint and explored practical ways they could minimize environmental degradation. From adopting sustainable consumption habits to advocating for renewable energy solutions, the emphasis was on empowering students to become stewards of the planet.

Laxmichand Golwala College of Commerce and Economics

The ESG Research Foundation conducted an ESG Awareness session on May 16th, 2024 at Laxmichand Golwala College Of Commerce And Economics, Mumbai which was attended by 110 students, intending to educate students about sustainability, social responsibility, and ethical governance. The session kicked off with an introduction to ESG and its growing importance. To keep students engaged, the program incorporated various activities.

Students participated in a presentation on ESG fundamentals, followed by group discussions where they analyzed real-world examples of ESG practices. An interactive quiz further solidified their understanding of key ESG concepts. The session fostered active participation and enthusiastic discussions, demonstrating a strong student interest in ESG issues.

The program successfully raised awareness of sustainability, improved student understanding of ESG frameworks, and equipped them with critical thinking skills. By exploring the interconnectedness of environmental, social, and governance factors, the session empowered students to make responsible decisions for a more sustainable future.

K J Somaiya College of Arts and Commerce

The ESG Research Foundation hosted a successful ESG Awareness Program session at K J Somaiya College of Arts and Commerce, Mumbai on May 17th, 2024, engaging 105 students. This session aimed to ignite discussions and deepen understanding of the interconnectedness of Environmental, Social, and Governance (ESG) factors, highlighting their real-world significance.

The program began with a foundational presentation on ESG principles, followed by interactive activities designed to challenge perspectives and encourage reflection. The session concluded with a fun and engaging quiz to test their knowledge and solidify key concepts.

The session boasted active student participation, with lively debates and thoughtful contributions demonstrating their genuine interest in ESG issues. Feedback highlighted the program's success in fostering critical thinking, raising awareness about responsible decision-making, and providing valuable insights into the interconnected nature of ESG considerations. Ultimately, the session served as a platform for meaningful dialogue and learning, empowering students to approach the future as leaders who promote sustainability and social responsibility.

Shraddha Mandir School

The ESG Research Foundation conducted a ESG (Environmental, Social, and Governance) awareness program at Shraddha Mandir School on May 17, 2024. Over 300 students participated in the session, which aimed to instill a foundation of environmental and social responsibility among the young generation. The program delved into the core principles of ESG, explaining how these factors contribute to sustainable development and a better future for all.

Through interactive activities, discussions, and presentations, students gained a deeper understanding of the environmental challenges facing the planet and the importance of social equity. The session emphasized the role of individuals in driving positive change and encouraged students to become advocates for sustainability. By fostering a sense of environmental stewardship and social consciousness, the ESG Research Foundation aims to cultivate responsible and engaged citizens.

Jain College of Engineering and Research

The ESG Research Foundation successfully conducted an awareness program on Environmental, Social, and Governance (ESG) at Jain College of Engineering and Research in Belagavi, Karnataka on May 25th, 2024. The program delved into pressing environmental issues like global warming and resource conservation, sparking a keen interest among the students. Interactive discussions explored practical solutions for environmental challenges, paving the way for a future generation of responsible engineers. Following the session, a lively Q&A session allowed students to clarify their doubts and gain deeper insights into ESG practices. This initiative has empowered students to become active participants in building a sustainable future.

BVN Public School

The ESG Research Foundation conducted session for 100 students at BVN Public School, Faridabad. The program utilized interactive activities to make learning about Environmental, Social, and Governance (ESG) principles engaging and fun. Students actively participated, enthusiastically answered questions and shared their thoughts on these critical issues. The Foundation distributed seed pens, a symbol of growth and a reminder of the students' burgeoning understanding of ESG's importance. After the session, the students felt empowered to contribute to a more sustainable future. This was not simply an awareness program, but a catalyst that ignited a passion for building a better future grounded in ESG principles.

B D Convent School

Building on their dedication to environmental and social responsibility, the ESG Research Foundation conducted awareness programs for 100 students at BD Convent School, Faridabad. Their program, packed with interactive activities, transformed learning about Environmental, Social, and Governance (ESG) principles into a dynamic and thought-provoking session. Students actively participated, showcasing their knowledge by answering questions and readily contributing their own ideas on these critical matters. As a token of appreciation for their understanding of ESG, the Foundation distributed seed pens, symbolizing both growth and the students' blossoming environmental awareness. . This program transcended traditional educational methods, serving as an inspiration for the next generation of responsible citizens.

Seshadripuram College

The ESG Research Foundation successfully conducted an ESG Awareness program on June 6th, 2024, at Seshadripuram College on Environmental, Social and Governance aspects. The session proved to be a valuable learning experience for all the 170 enthusiastic students and faculty members from BCA and MCA Programs who were present. The program fostered a deeper understanding of ESG principles and their impact on our planet, emphasizing the importance of environmental restoration in combating desertification and building drought resilience.

Students gained insights into how environmental, social, and governance factors are intertwined and how businesses can operate more sustainably, contributing to a healthier planet. Further, the presentation focused on World Environment Day 2024's theme - Land Restoration, Desertification, and Drought Resilience - highlighting the crucial role businesses can play in these areas. The session explored how sustainable practices can help reverse land degradation, combat desertification, and build resilience against droughts, all vital steps towards a healthier planet. The session was aimed at inspiring future generations to become responsible stewards of the environment.

Notre Dame School

To celebrate World Environment Day on 5th June, an awareness session was conducted at Notre Dame School, Vasai by ESG Research Foundation. The session began with explaining the challenges our planet is facing like global warming, Climate Change, etc, introduced the need for sustainability and ESG to the students for a better future. An engaging and educational activity of making newspaper seed bombs was conducted with all 300 students who participated in the session. The theme of the day, "Ecosystem Restoration," was emphasized to highlight the importance of taking action to restore our natural ecosystems. The significance of World Environment Day was discussed with the students, explaining the global effort to raise awareness and promote actions for the protection of our environment. The theme, "Ecosystem Restoration," was elaborated on, stressing the need to revive natural habitats and the role each individual can play in this process. The activity was highly appreciated by both students and teachers. The Newspaper Seed Bomb activity not only educated students about World Environment Day and its theme but also provided them with a practical approach to contribute to ecosystem restoration. This initiative fostered a sense of responsibility towards the environment. .

Anand Law College & Anand College of Legal Studies

On July 30, 2024, the ESG Research Foundation hosted an ESG (Environmental, Social, and Governance) awareness session for students at Anand Law College and Anand College of Legal Studies. Eighty-eight students attended the event, which focused on the importance of ESG principles in today's world. The session explored the core concepts of ESG and its role in driving sustainable development and long-term value creation. Participants also learned about the United Nations' 17 Sustainable Development Goals (SDGs) as a framework for building a better future.

To enhance engagement, the session included interactive elements such as real-world case studies and a quiz on environmental sustainability. The ESG Research Foundation aims to equip future legal professionals with the knowledge and skills needed to integrate ESG considerations into their careers, fostering a generation of responsible global citizens.

Anand Institute of Social Works

The ESG Research Foundation successfully conducted an awareness session on Environmental, Social, and Governance (ESG) principles at Anand Institute of Social Work on July 25, 2024. Attended by over 100 students, the session underscored the critical role of ESG in addressing global challenges such as climate change, inequality, and governance issues. Participants gained a comprehensive understanding of ESG concepts, their impact on businesses and society, and the emerging career opportunities in this field.

The session emphasized the importance of integrating ESG principles into corporate strategies to drive sustainable growth and create shared value. Through interactive discussions and real-world examples, the ESG Research Foundation highlighted the significance of robust ESG frameworks, stakeholder engagement, and measurable impact. The event empowered students to become advocates for responsible business practices and inspired them to contribute to a more sustainable future.

Malleswaram Ladies Association Pre-University College for Women

An awareness session on the aspects of ESG was conducted by ESG Research Foundation on July 20, 2024, at Malleswaram Ladies' Association Pre-University College for Women in Bangalore. 106 students and faculty members attended the session.

The session covered the importance of ESG concepts, risks, and challenges. It also highlighted the career opportunities available in ESG functions. Students showed great interest in the topic and learned about actionable steps to promote sustainability and a healthy environment. The college expressed its gratitude to the ESG Research Foundation for organising the informative and well-conducted session.

St Mary Girls Sen. Sec School

On August 14, 2024, the ESG Research Foundation conducted an awareness program at St. Mary's Girls Senior Secondary School in Amritsar, Punjab. The session commenced with a detailed discussion on the pressing environmental crisis, underscoring the planet's urgent plea for help, symbolised by the SOS message. The importance of proactive measures to address these challenges was emphasized. The program primarily focused on the critical need to restore Earth's ecosystems and foster harmony between humanity and nature. Participants were educated about the dangers of greenhouse gases to our planet and the ozone layer, the growing scarcity of resources and strategies for their conservation. In conclusion, the students gained a comprehensive understanding of environmental issues and challenges and were inspired to take steps to protect our planet.

SSSS College of Commerce & Allied Studies

An awareness program focusing on Environmental, Social, and Governance (ESG) principles was held on 9th May 2024 for 113 students at SSS College of Commerce and Allied Studies in Amritsar, Punjab by the ESG Research Foundation. The event aimed to educate students on essential topics such as climate change and sustainability, offering them a deeper understanding of global environmental issues. The participants found the session informative and appreciated the chance to engage with these important subjects. The program introduced students to key ESG concepts through interactive discussions and presentations, helping them grasp their responsibility in promoting environmental care and ethical practices. This initiative raised awareness and motivated students to take active steps towards fostering a more sustainable and responsible future.
